# Functional Components

(hook) → ~~power~~ use all the ~~power~~ of class in function

## ① use State

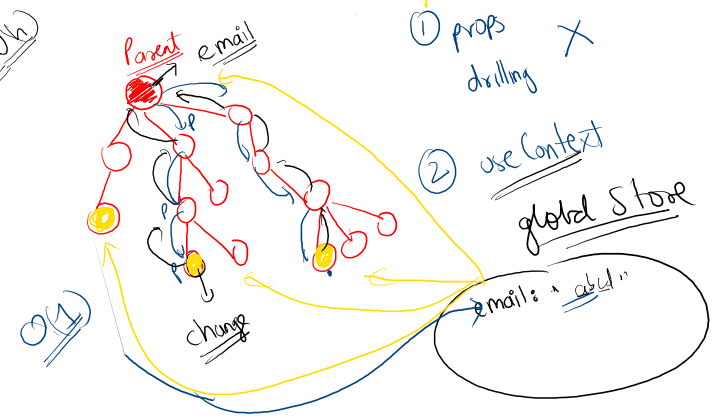

i) `const [count, setCount] = useState(5);`  
ii) `setCount(10);`

`constructor {  
 this.state = {  
 count: 5  
 }  
}`

`handleCount = () => {  
 this.setState({  
 count: 10, 3  
 });  
}`

*class*  
*creat.*  
*updt.*
